

# IPS INNOVATE

CELEBRATING INNOVATION

A MONTH OF THINKING, INQUIRING, COLLABORATING & REFLECTING

## EMBRACING OUR COMMUNITY

Across the school, classes have been taking advantage of **finally** being able to freely invite members from all corners of our learning community into our spaces.

Group 8 students hosted a Fund Fair to raise money for Ukraine and Group 5 have been exploring different ways to raise both money and awareness for protecting the environment. Group 4 students invited classes to sign up for 'office hours', where they could come and see what is happening in the classroom, and Group 3 shared their unit summative with students and teachers. Connections were made between Groups 8, 4, & 2 as they found ways to share, inspire and support each other's poetry units. Group 6 showcased their photography with an exhibition for students and parents and Early Years children reflected on the learning of their peers across locations.

“ SHARING WILL ENRICH EVERYONE WITH MORE KNOWLEDGE. ”

Ana Monnar

WE LEARN, WE EXPERIENCE, WE INSPIRE
